Thanks for checking out our sampler pack. In this pack you will find sample sounds from the complete pack. All sounds are included from this pack in a small sampler form to check out before you buy.

The sound quality is lower then in the finished package and all sounds come uncompressed on a CD when mailed to you. At this time, we only mail out CDs with the product on it. No download version yet available but down the road we will offer download or hard copy versions of these sound packs. So please bear with us...

If you have any questions about the sounds pack sampler or the pack in general, please shoot us a email at [dlstorminc@yahoo.com](mailto:dlstorminc@yahoo.com) and we'll get right back to you. To order just click the pay pal link at the top of the pack listing and off you go. Usually we mail out packs about twice a

week and usually on a Tuesday and Thursday mailings go out.

This sampler pack improves the Ambient life in your level or game in general with using unique sounds and mood shapes to bring your level to life with more depth then what you would find without this pack. Also, we have many other packs in the works to come online so please watch for those as well over time right from the sounds section of our web site. We try to make samplers to every pack so you can check them out and are working hard to get all of them up online shortly.

See you online...

Sincerely,

Will Magic Zettler
